Re: 1411 S. Potomac Exterior Waste Hold Enclosure
Building Permit #1250370 LT
WWSE #17.016

Dear Wyatt:

WWSE, LLC represents and acknowledges to the City of Aurora that the exterior waste hold work on the North side of the building has, to the best of our knowledge, belief and opinion, been substantially completed and integrated into the project in accordance with the Cassidy Architecture drawings dated October 13, 2017. We have reviewed the construction of the reinforced concrete strip footing and the reinforced CMU wall including three tiers of reinforced bond beams.

If you have any questions, please give us a call.

Sincerely,

WWSE, LLC
